

September 2026

First KCORC Summer School on innovative ORC and heat pump technologies

Preliminary Agenda for KCORC Summer School (September 7-11, 2026)

Monday (07.09.26) from 9:00 a.m. until Friday
(11.09.26) 12:00 p.m.

Enrollment is now available

Enroll by 30th of June (23:59) using the following link:
<https://forms.gle/dfZ5thhS4BwAgpsG6>

Where?

Location of KCORC summer school

001, ZEI-Seminarraum (5414.EG.001)

<https://nav.tum.de/room/5414.EG.001>

TUM

How to reach?

- **U6 subway** → direct to **Garching-Forschungszentrum** (last stop).
- From **Munich city center** → take **U6** towards **Garching-Forschungszentrum**.
- From **Munich-Central-Station** → S-Bahn to **Marienplatz**, then **U6** to Garching-Forschungszentrum.
- From **Munich Airport** → **S1 + Bus 690** or **S8 + Bus 230** to Garching-Forschungszentrum.
- The station is **directly on the research campus**, within walking distance of most institutes.
- A cab or Uber ride will take around 20 – 25 minutes and cost you between 35 and 65 €.
- By car: parking at the Park & Ride "Parkplatz Garching Forschungszentrum" (Boltzmannstraße 85748 Garching). The fee for parking is 1 € for 24 hours. Please be aware that 24 hours is also the maximum allowed parking time.

Public transportation

Regarding public transportation tickets, the following options are available:

- **Single tickets:** Suitable if you only make a few journeys.
- **Day tickets:** A good option if you plan multiple trips on the same day.

[MVV single and day tickets](#)

• **Deutschlandticket (€63/month):** Often the **cheapest and most convenient option for a one-week stay** if you plan to use public transport regularly. It covers all local and regional public transport in Munich and throughout Germany, including the U6 to Garching-Forschungszentrum. The ticket can be purchased online and cancelled after the month, so many visitors find it more economical than buying multiple individual tickets.

[Deutschland ticket](#), [MVG](#)

Hotel recommendations

It is a matter of personal preference if you want to stay in a hotel close to the research campus or in the city centre. In case you choose a hotel in Garching, please be aware that between 1 a.m. and 5 a.m. there is no public transport service.

[Stellaris Apartment Hotel](#): Directly on the campus in Garching

[Courtyard by Marriot Munich Garching](#): Directly on the campus in Garching

[B&B Hotel München Garching](#): 5 minutes by public transport to the GA location

[Motel One München-Garching](#): 5 minutes by public transport to the GA location

[Cocoon Sendlinger Tor](#): In the city centre - around 30 to 35 minutes to reach the GA location

Within the city centre there are dozens of potential hotel locations at different price levels available. In general, it is recommend checking the travel time to Garching campus before booking. A hotel close to the metro line U6 is preferred since it allows you a direct travel to the Summer School venue.

Currency

The currency is €. You can pay by card in all shops, supermarkets and larger restaurants. However, smaller shops, kiosks, and some restaurants only accept cash.

September 2026

First KCORC Summer School on innovative ORC and heat pump technologies

Confirmed Excursions

SW/M

Stadtwerke München

- ✓ Guided tour of the 5 MW_{el} geothermal ORC plant
- ✓ Introduction to geothermal power generation
- ✓ Meet-the-expert session with SWM engineers
- ✓ Insights into plant operation and performance

TUM

- ✓ Visit the TUM gas-fired CHP Cheng Cycle plant (4 MW_{el} + 6.5 MW_{th})
- ✓ Insights into plant operation, efficiency and role in the campus energy supply
- ✓ Learn about system flexibility and emissions aftertreatment

September 2026

First KCORC Summer School on innovative ORC and heat pump technologies

Lab tour

- ✓ Visit the **laboratory infrastructure of the Chair of Energy Systems, TUM**, including the reversible electrically driven ORC and reversible absorption chiller heat pump modules.

Modeling workshop

tespy['tɛs.pai]
open energy modelling framework

- ✓ Simulate an **ORC system** or **heat pump** model using the **open-source TESPpy framework** in **Python**.
- ✓ Analyze models based on real operating data from **geothermal energy systems**.
- ✓ **Case studies:** Geothermal ORC in Sauerlach & high-temperature heat pump in Garching.
- ✓ Work in teams and present your findings and recommendations.

Poster session & Best poster award

INNOVATIVE ENERGIE PULLACH

- ✓ **Research Poster Presentations:** Present your PhD, research project or Master's thesis and share your key objectives, methods and findings.
- ✓ **Interactive Exchange:** Discuss your work with fellow participants researchers and industry experts.
- ✓ **Win the best poster award of 500 €** donated by the geothermal plant operator IEP (south of Munich).

September 2026

First KCORC Summer School on innovative ORC and heat pump technologies

Lectures

Interactive lectures will be given by the speakers, including the following topics:

Fundamentals & Applications

- Charge management of heat pumps and ORCs
- High-temperature heat pumps for industry
- Large-scale district heating heat pumps
- Reversible ORC for geothermal applications

Design & Simulation

- Turbomachinery design (lecture & workshop)
- TESP modeling workshop
- ORC product development

Advanced topics

- Zeotropic mixtures and advanced working fluids

Preliminary schedule

Time	Monday	Tuesday	Wednesday	Thursday	Friday
Morning (9.00-12.00)*	Lectures	Lectures	Lectures + Modelling Workshop	Lectures + Excursion	Lectures + Group presentations
Lunch Break					
Afternoon (13.00-18.00)*	Poster Session	Workshop	Modelling Workshop	Excursion	Free
Evening	Welcome drinks & BBQ	City tour & Beer garden	Free	Closing drinks	Free

*Including short coffee breaks

The complete program and timetable will be provided soon
